'Room' open from 7:15pm talk begins at 7:30pm**

Boaters know better than most the amount of plastic in our rivers and canals, this plastic not only pollutes our waterways, most finds it way to the sea, where it has a disastrous impact on fish, birds, mammals and ultimately us

Join us for an informative talk about the issue of plastic pollution and how we at Burton Waters can do our bit to reduce it - Everyone Welcome
